Actual Figures

Weaning Weight : 427kg
 2YO Weight: 1004kg
 P8 Fat Scan: 6mm
 Rib Fat Scan: 5mm
 EMA: 149cm²
 IMF%: 5.2
 Scrotal: 43cm

Top 1% 200 & 600 day weights. Top 5% 400 day weight. Top 5% Scrotal Size. Top 10% Milk. Top 1% Eye Muscle Area G130 was imported from the Coleman Limousin Ranch, Montana USA and his genetic cross was hand picked by Trent and Larry Coleman as it has worked very well in their breeding program. He is the thickest Black Limousin Bull we have ever produced. High performance, high growth and a wonderful temperament. A polled bull with a massive scrotal and growth. He has 'Sire' written all over him and along with his ET brothers are the only Sudden Impacts in the country.

Price: \$40 + GST per straw

The top priced Bull at the 2013 Inaugural Manali Limousin rare Bull Sale. Manali Sudden Impact G166 was imported as an embryo into Australia from the Coleman Limousin Ranch in Montana, USA. His breeding was hand picked by Trent and Larry Coleman as a genetic cross that has worked extremely well in their breeding program. This bull has so much depth of body, natural thickness and we believe the best skinned Limousin bull ever been on our property. G166 will work on any type of cow but especially for breeders wanting to soften a set of cows but retain thickness.
